ENVIRONMENTAL FIELD, LABORATORY, AND DATA OPERATIONS

Environmental technician with hands-on experience in wastewater testing, wet chemistry procedures, sample collection, and laboratory documentation. Strong background in environmental compliance, field sampling, and data tracking using Microsoft Excel. Experienced operating in fast-paced, safety-critical industrial environments and prepared for rotating shifts.

RELEVANT SKILLS

• Wet Chemistry Testing • Wastewater Analysis • Environmental Data Collection & Methodologies
• Sampling Regulatory Compliance • QA/QC Procedures • Sample Chain-of-Custody & Documentation • Excel Data Tracking • Safety Protocols • Industrial Work Environments • Lab Equipment Calibration

RELEVANT EMPLOYMENT EXPERIENCE

Environmental Field Technician — Environmental Business Specialists (2020)

- Conducted wastewater pond sampling and wet/dry mass measurements.
- Assisted with sample preparation, lab processing, and documentation.
- Ensured adherence to QA/QC and environmental compliance requirements.

Environmental Data Technician — Compliance EnviroSystems (2018–2019)

- Analyzed structural and environmental data using inspection software.
- Conducted equipment setup, calibration, and field data retrieval.
- Performed confined-entry tasks while following strict safety protocols.

Environmental Field Technician — Pro-Tech Services(2015–2016)

- Collected soil and groundwater samples in industrial environments.
- Performed field water testing including pH, EC, temperature, DO, and clarity.

Other Laboratory Roles — LSU (2012–2015)

Seed & Grain Lab Assistant — Conducted microscopic species sorting, sample prep, and research support.

Zooplankton Lab Technician — Performed microscopic analysis and followed rigorous QA/QC procedures.

EDUCATION

B.S.— Environmental Management Systems, LSU (2015)

B.S.— Computer Science, WGU (In Progress)

M.S.— Financial Planning, ACFS (2024)

RELEVANT CERTIFICATIONS

OSHA-10 • NCCER Safety Technology • Lean Six Sigma Yellow Belt • BLS Certification • Google Data Analytics • Google IT Support Certification •

POSITION MATCH HIGHLIGHTS

- Direct experience performing field and lab wastewater testing and wet chemistry tasks.
- Strong safety background in laboratory and industrial environments.
- Skilled in Excel for tracking, recording, and analyzing lab results.
- Familiar with regulatory compliance and documentation standards.
- Reliable and able to work rotating shifts, nights, weekends, and holidays.
