## Professional Experience

### Call Center/Data Entry

Morrison Healthcare • Lafayette, LA

04/2023 - Present

- I answered calls from clinicians, administrators, staff and patients to coordinate clinically appropriate dietary deliverables.
- I performed quality control on patient accounts, ensuring that their clinical dietary records aligned with healthcare staff and the patient's interests.
- I provided scheduled reports to management, maintained physical data records, and improved upon existing methods of information systems.

### Online Sales

Toadally Goods, Ebay • Online

07/2020 - 03/2023

- Resale of office equipment, electronics, electronic components, media, and more.
- Gained a strong understanding of shipping logistics to maximize efficiency.
- Conducted market research for pricing models and strategies.
- Maintained a high seller rating through professional customer support, packaging, and competitive pricing models.

### Environmental Field Technician

Environmental Business Specialists • Mandeville, LA

01/2020 - 06/2020

- Collect and test samples from papermill wastewater processing ponds.
- Assist with sample preparation and processing in the lab. Finding wet/dry mass and other physical metrics.
- Prepare field equipment such as boats, meters, safety equipment, sampling apparatuses.
- COVID disruptions lead to early separation.

### Owner Assistant

Gulf Coast Spirits • Mandeville, LA

07/2019 - 01/2020

- Managed customer interactions, inventory presentation, and transactions without supervision.
- Distributed arriving shipments across the store to maintain inventory and appearance.

### Data Technician

Compliance Envirosystems • Baton Rouge, LA

01/2018 - 06/2019

- I reviewed CCTV footage from remote vehicles of traversed sewer & storm water infrastructure. Inspecting the pipes and access points for structural damage using a 3D explorer software.
- I used my pipe and manhole inspection training to identify the types, severity, and respective codes for damages I identified.
- I used inspection software that featured photogrammetry, to render a 3D virtually-explorable space of manhole access points that allowed me to map measurements and classify components of the structure based on spatial information.
- I expanded myself into working on a separate team with the company to do flow monitoring inspections. Traveling across the southern states, I would install, calibrate, collect data from, and retrieve flow monitoring equipment at the bottom of manholes. Confined entry descents of 2' - 25' into the active flow of the sewer system.

### Directional Driller Assistant

Mixson Utilities • Baton Rouge, LA

06/2017 - 12/2017

- Prepare HDPE conduit for horizontal directional drilling (HDD) projects.
- Transport large trailers with heavy equipment to and from job sites.
- Prepare drill pipes for loading into DitchWitch machine and coordinate with operator to ensure safe and effective strategies for different job site demands.
- Site-specific safety trainings, machine maintenance and troubleshooting.

## **Lead Customer Service Representative**

Martin Wine Cellar • Baton Rouge, LA

09/2016 - 06/2017

- Maintained accurate inventory records, ensuring that stock levels were sufficient to meet customer demand
- Offered product knowledge to customers regarding different types of liquor brands, flavors, origins, and production methods

## **Environmental Field Technician**

Professional Technical Support Services Inc. • Baton Rouge, LA

12/2015 - 12/2016

- Collecting soil samples and groundwater samples using GeoProbe direct-push & sonic drilling equipment.
- Transport large equipment and trailer transport to job site.
- Handling chain-of-custody of collected samples.
- Collected data using field equipment for testing of water samples for pH, EC, temperature, clarity, dissolved oxygen.
- Visiting client sites which included industrial plants and participating in site-specific safety trainings.

## **Army 11B Infantryman**

Louisiana Army National Guard • Thibodaux, LA

12/2010 - 12/2016

- While enrolled in my undergraduate studies I served part-time in the National Guard as an Infantryman.
- One weekend a month and several weeks in the summer I would report in for training on weaponry, security, and emergency response skills.
- Assisted with several emergency response efforts in Louisiana.

## **Student Laboratory Assistant, Seed & Grain Lab**

Louisiana State University • Baton Rouge, LA

08/2015 - 12/2015

- In my final semester at LSU, I assisted agricultural graduate student research efforts around seed and plant research.
- Using a microscope, sorted different species of seeds into sample packaging for research use and distribution for agricultural outreach support.
- Assisted graduate students at the LSU research farm with measuring and recording data.

## **Student Laboratory Technician, Zooplankton Lab**

Louisiana State University • Baton Rouge, LA

01/2012 - 05/2014

- Used a dissecting microscope to examine ocean samples. Separating planktonic fish larvae from other planktonic species.
- Laboratory visual processing of ocean water samples containing planktonic species using a microscope.
- Rigorous QA/QC standards for ensuring accurate data recorded on samples.
- Using laboratory equipment such as vent hoods, chemical safety equipment, glassware.

## **Food Service Team Lead**

Wendy's • Mandeville, LA

02/2007 - 01/2010

- Working part-time during high school. Operated kitchen equipment, including fryers, grills, and ovens.
- Trained new employees and worked closely with supervisors.

---
